

3/4" 1 4" 1 2" Three Way High Pressure Ball Valve With Internal Teeth Electric

Our Product Introduction

for more products please visit us on fbballvalve.com

Basic Information

- Place of Origin: China
- Brand Name: FABIA
- Certification: ISO9001, CE, CCS, DNV
- Model Number: 1/8 inch 36 inch
- Minimum Order Quantity: 1 set
- Price: Negotiable
- Packaging Details: Cartons/Wooden cases
- Delivery Time: 15-30 work days
- Payment Terms: L/C, D/A, D/P, T/T, MoneyGram, Western Union
- Supply Ability: 100-1000 set per week

Product Specification

- Product Name: Electric High Pressure Ball Valve
- Valve Type: High Pressure Ball Valve
- Body Material: Stainless Steel
- End Connection: Threaded
- Operation: Electric
- Stem Seal: PTFE, PEEK
- Pressure Test: API 598
- Valve Size: 1/2-24 Inch
- Pressure Rating: Class 150-2500
- Anti-Static Design: API 6D, API 608
- Temperature: Low Temperature, High Temperature
- Highlight: 1 2 high pressure ball valve,
1 4 high pressure ball valve,
3/4 high pressure ball valve

Product Description

FABIA Electric High Pressure Three-Way Ball Valve With Internal Teeth

1. Description:

Electric high pressure three-way ball valve with internal thread is widely used in various industries and fields.

Petroleum and chemical industries, electric three-way ball valves with internal thread are commonly used for liquid mixing, separation and regulation in pipeline systems.

Power industry, it is commonly used for flow control in steam systems and hot water systems.

Pharmaceutical and food industries, electric three-way ball valves with internal thread are commonly used for liquid regulation and delivery.

2. Specification:

FABIA Valve Parameter List	
Valve type:	Electric High Pressure Three-Way Ball Valve With Internal Teeth
Size:	1/8 inch 8 inch
Material:	WCB,Q235B,2507,A105,CF8(304),CF8M(316),CF3M(316L),CF3(304L),PVC,ZG1Cr18Ni9Ti,ZG1Cr18Ni12Mo2Ti
Connection type:	Welded connection/flange connection/thread connection/clamp connection
Driving model:	Manual/Worm gear drive/Pneumatic/Electric
Pressure rating:	PN1.0 PN64,ANSI CLASS 150-900,JIS10-20K
Temperature:	-196 540
Model:	FB-Q.....

3. Features:

Reliability: The electric three-way internal thread ball valve is made of high-quality materials, with high wear and corrosion resistance, and can operate stably in harsh working environments for a long time.

Fluid control: the rotation of the ball can achieve different fluid flow control, by adjusting the position of the ball, you can realize the three-way, four-way and other forms of fluid control.

Fast response: Through the control of the electric drive device, the switching operation of the electric three-way internal thread ball valve can achieve fast, accurate and accurate response.

Remote control: The electric three-way internal thread ball valve can be equipped with a PLC control system to achieve remote monitoring and operation.

Through the remote control system, the linkage control of multiple valves can be realized to improve production efficiency and safety.

Multiple modes of operation: In addition to the electric drive device, the electric three-way internal thread ball valve can also be operated manually and pneumatic to adapt to different use scenarios and needs.
