

Electric High Pressure Two Piece Ball Valve With Internal Teeth

Our Product Introduction

for more products please visit us on fbballvalve.com

Basic Information

- Place of Origin: China
- Brand Name: FABIA
- Certification: ISO9001,CE,CCS,DNV
- Model Number: 1/8 inch 36 inch
- Minimum Order Quantity: 1 set
- Price: Negotiable
- Packaging Details: Cartons/Wooden cases
- Delivery Time: 15-30 work days
- Payment Terms: L/C, D/A, D/P, T/T, MoneyGram, Western Union
- Supply Ability: 100-1000 set per week

Product Specification

- Product Name: Two-Piece Ball With Internal Teeth
- Valve Type: High Pressure Ball Valve
- Valve Operation Type: Electric
- Valve Bonnet Type: Standard
- Valve Connection Type: Threaded
- Valve Application: Petroleum, Chemical, Power, Etc
- Valve Pressure Class: PN10
- Valve Design Standard: API 6D
- Valve Pressure Rating: 1000 PSI
- Valve Seat Material: PTFE/EPDM
- Valve Size: 8-inch
- Valve Temperature Rating: 200
- Valve Certification: ISO 9001
- Highlight: Internal Teeth Two Piece Ball Valve, Electric Ball Valve With Internal Teeth, High Pressure Ball Valve API 6D

Product Description

FABIA Electric High Pressure Two-Piece Ball Valve With Internal Teeth

1. Description:

Widely used in petroleum, chemical industry, urban water supply and drainage and other conditions requiring strict cut-off.

2. Specification:

FABIA Valve Parameter List	
Valve type:	Electric High Pressure Two-Piece Ball Valve With Internal Teeth
Size:	1/8 inch 8 inch
Material:	WCB,Q235B,2507,A105,CF8(304),CF8M(316),CF3M(316L),CF3(304L),PVC,ZG1Cr18Ni9Ti,ZG1Cr18Ni12Mo2Ti
Connection type:	Welded connection/flange connection/thread connection/clamp connection
Driving model:	Manual/Worm gear drive/Pneumatic/Electric
Pressure rating:	PN1.0 PN64,ANSI CLASS 150-900,JIS10-20K
Temperature:	-196 540
Model:	FB-Q.....

3. Features:

Fluid resistance is small, and the full-diameter electric ball valve basically has no flow resistance.

Simple and convenient structure, small size and light weight.

Wide range of application, small diameter to a few millimeters, large to a few meters, from high vacuum to high pressure can be applied.

Easy to operate, open and close quickly, from full open to full close as long as the rotation of 90 degrees, easy to remote control.

Tight and reliable. It has two sealing surfaces, and at present, the sealing surface material of the electric ball valve is widely used in various plastics, which has good sealing property and can achieve complete sealing.

Also been widely used in vacuum systems.

When fully open or fully closed, the sealing surface of the ball and the seat is isolated from the medium, and the medium will not cause erosion of the valve sealing surface when it passes through.

Because the electric ball valve with internal thread has wipeability in the opening and closing process, it can be used in the medium with suspended solid particles.
